

## CARE INSTRUCTIONS V2

### ACCENT Vinyl

#### Regular Care

- Protect from direct sunlight
- Remove dust by wiping with soft, lint free cloth

#### Spot Cleaning

- Treat spills and stains as soon as possible.
- Gently wipe any soil or liquid from the surface of the vinyl with a clean soft cloth
- Persistent marks may need additional cleaning products
- Test any cleaning products on an inconspicuous area prior to commencing cleaning
- Clean as below.

#### Cleaning

- Do not clean with hot water extraction.
- Do not clean with on-site drycleaning.
- Do not use abrasive powder or paste cleaners.
- Do not scrub or wet excessively.

#### Step 1

- Wipe with a clean non-coloured cloth dampened with a solution of mild soap and lukewarm water.
- Remove any residual soap solution by wiping with a clean non-coloured cloth dampened with fresh water.
- Wipe dry.

#### Step 2

- If after treating as above, stain is persistent, clean using a non-abrasive cleaner and wipe with a clean cloth and fresh water to remove any residual cleaner.

#### Step 3

- If after treating as above, stain is persistent clean with 10% solution of household bleach and water. Wipe with a clean cloth dampened with fresh water to remove residual bleach solution.
- Dry away from direct heat and sunlight.

Please Note: After use of any cleaning products the vinyl must be wiped clean of any residual cleaning product using fresh water and a clean cloth. The presence of residual cleaning product may speed up future soiling and / or cause deterioration of the vinyl over time.
