

HP 2 CARE INSTRUCTIONS

PRODUCT TYPE: textile fabric, Crypton, non-removable covers

REGULAR CARE

- Protect from direct sunlight.
- Vacuum regularly using low suction.
- Rotate reversible cushions regularly.

SPOT CLEANING

- Treat spills and stains as soon as possible.
- Gently scrape any soil or mop any liquid from the surface of the fabric.
- If the spot remains, apply a soap and water solution consisting of two cups warm water and one teaspoon mild powdered enzyme detergent (e.g., Dynamo®, Drive®) to the spot with a light spray.
- Work the area using for example a soft bristle brush from the outside of spot towards the middle.
- Allow solution to work for approximately one minute.
- Extract with clean water or blot with clean, soft, non-coloured towel.
- Repeat above steps as necessary until spot is removed.
- Rinse with clear lukewarm water and blot with a clean, soft, non-coloured towel as the final step. All soap must be thoroughly removed as residual soap may speed up future soiling.
- Do not saturate the furniture interior with water or other cleaning liquids.
- Professional cleaning is always recommended.

DISINFECTION

100% polyester Crypton® fabrics can safely withstand cleaning with a solution of 10% bleach and 90% water. The solution can remain on the fabric surface for up to 10 minutes dwell time after which the bleach solution must be thoroughly rinsed from the fabric. Failure to adhere to these guidelines may result in damage to the fabric surface.
