ORIGIN Australia

ENVIRONMENT

- 100% sustainable, renewable content: Tencel® cellulose is made from the wood pulp of trees grown in sustainably managed forests.
- Environmentally Improved Production Process: Manufactured to strict environmental criteria, building on Best Available Technologies recommended by the Environmental Protection Agency (US) and the European Union Eco Label.
- Over 99.5% of the chemicals used in processing Tencel® are recycled.
- Certified as low-VOC. Test certificate available on request.
- 100% biodegradable

GREEN STAR + LEED

- GEO is certified to the EU Ecolabel.
- GEO can be used on white and upholstered furniture certified by AFRDI, GECA, ECNZ and Ecospecifier (Level B + C).
- The Green Star Rating Tool states "Where at least 90% of an item's mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C." Therefore any fabric can be used as fabrics are almost always under 10% by weight of a furniture item.
- 100% rapidly renewable content contributes to LEED MR Credit 6 Rapidly Renewable Materials.

EU Ecolabel: UK/16/009
